

## Controllers Quickstart: Projects & Targets

### Course Description

The **Controller Quickstart Online Series** provides an accessible introduction to topics focused on GE Intelligent Platforms Controllers and Proficy Machine Edition programming software.

The **Projects & Targets** course is an entry-level offering focusing on multiple aspects of project and target configuration. This course will guide students through the rudiments of working with Proficy Machine Edition.

### Who Should Attend?

This course is designed for those who design, develop, deploy and maintain GE Intelligent Platforms control systems with Proficy Machine Edition.

### Are There Any Prerequisites?

Participants should have a working knowledge of Internet Explorer, and Windows operating systems. All participants also need an account at the GE Intelligent Platforms training portal – EDGE.

### What Tasks Will Be Taught in This Online Course?

Upon completion of this Course, the student will be able to:

- Define projects and targets
- Create a new project
- Add target components
- Document a project
- Delete a project or target
- Sharing and collaborating on projects
- Use project change management features
