

## Virtual Campus for Cause+ & Troubleshooter

### Course Description

Proficy\* Virtual Campus Training (VCT) is an easy-to-use software application that offers interactive training for users of Proficy Troubleshooter and Proficy Cause+ solutions.

As standalone, self-paced training, the VCT includes easy-to-follow demonstrations and guided simulations as exercises. It is installed with existing versions of Proficy Troubleshooter and Cause+, enabling users to simply toggle between the training application and the software products during training activities.

Furthermore, training can occur at once or gradually because you access the VCT locally, from your own PC.

### Who should attend?

This training is intended for new and existing users of Proficy Cause+ and/or Troubleshooter. Proficy iFIX or Proficy CIMPLICITY experience is an asset.

### Are there any prerequisites?

You will need a DVD-ROM player and a Windows-based PC to run this training. This training can be used with your licensed copies of Proficy Cause+ and Troubleshooter to enhance your learning experience.

### What topics will be covered in this course?

The following topics will be covered in this session:

- Proficy Troubleshooter
- Proficy Cause+ for Proficy iFIX\*
- Proficy Cause+ for Proficy CIMPLICITY\*
- Proficy Cause+ Web Server

Each topic includes:
